the other day, that some epidemic had

gotten amongst the women, and they

are all sick.

Found—Five miles east of town, on

Saturday, a black hat. It is at this of-

fice if owner don't come for it, the editor

will wear it to Topeka.

Vol. I No. 1 of the Coldwater Voice

comes to us this week marked X. The

Voice succeeds the Echo, and works in

the interest of the Alliance.

We are informed by persons south of

this city, that there was about twice as

much snow at Kiowa last Thursday

night as there was at this place.

The Kiowa Journal has been leased to

Wm. McKean, who has virtually had

charge of the office since last Novem-

ber. There will be no change in its

political content.

Geo. A. Tucker, local editor of the

Harper Sentinel, is killing E. B. Trickett

with place on the Crescent this week.

Mr. Trickett was called to Harper, Sat-

urday, on account of the illness of his

brother.

Advertising pays. A Kansas editor

advised for the owner of a lost pocket-

book, and that night a burglar enter-

ed his office and robbed him of the

pocketbook and everything he posses-

FROZEN TO DEATH!

Two Victims of the Blizzard—Charles and Bert Bell Succumb to the Storm's Fury.

There was a watch meeting at the

Wilson school house, last Wednesday

night. This school house is located four

miles west of Elm Mills, in this county,

and is upon a high ridge which divides

Elm creek and Medicine river. Medi-

son G. Bell lived one mile south of the

school house, and his three children,

Charles, aged about 22 years, Bert, aged

about 10 years, and Clara, aged about

17 years, attended the meeting. After

being at the meeting a short while, the

blizzard arose, and as it continued to

grow worse, they concluded that they

had better start for home, and at 10

o'clock they left the school house. The

road runs from the school house in a

southeast direction, and they followed

the road, traveling with the storm, till

they reached a place just east of their

house. They then turned west, and

reached their own gate, which is two

hundred yards south of the house. They

knew where they were, and held a con-

versation at the gate, Charles telling the

others that they could not make the

distance in the face of the storm, and

that they would have to continue mov-

ing south with the wind. They then

started south, and after traveling a

quarter of a mile came to a little can-

yon, and took refuge under a bank in a

swampy spot. They knew exactly

where they were, and all huddled up

together to keep warm. They were

soon buried under the drifting snow,

and conversation ceased. They re-

mained quiet until after sunrise Thurs-

day morning, when Charles crawled out

from under the snow, with the inten-

tion of going to the house. He called

out to his sister that he was so stiff he

could not walk. It is presumed that he

then had down, exposed to the wind,

and was soon frozen to death.

Mr. Bell started out Thursday morn-

ing, to hunt up his children. He did

not find them at the homes of his neigh-

bors, and searching parties were organ-

ized. Still it was hoped that they were

safe, and no great anxiety was exhib-

ited, and as night came on the search

was given up. On Friday morning the

neighborhood turned out, and at two

o'clock the body of Charles was found,

and the searchers soon gathered around

him and then the refuge was discovered.

Some one called the girl by name, and

she answered from beneath the snow.

One man then went to the house for a

scop, and when he returned the snow

was removed and the two children tak-

en out. The boy was dead, and the

girl was very stiff and benumbed, but

was conscious. She did not know that

either of her brothers had died, and

while she was being carried to the

house, she told the men to go back and

bring the boys.

The funeral of the two boys occurred

last Saturday, and while the girl was

improving steadily, she had not been

informed in regard to their death. The

news was brought to town late Friday

afternoon, and it was the general theme

of conversation on the street Saturday.

The blizzard was very sudden. At 7

o'clock Wednesday night it was plain

and without fire. At 8 o'clock a fur-

ious north wind commenced blowing,

and a slight rain fell, accompanied by

a great deal of thunder and lightning.

The rain soon turned to sleet, and then

to snow, and the thermometer fell rap-

idly, but only went about eight degrees

below the freezing point. The furious
